

Project Title: build an e-commerce website like: themomskart.com.

Edible food home-based business

The website is a social commerce marketplace built on the philosophy of empowering rural India through homemade & Handmade Products, bridging the gap between home-based women entrepreneurs, and urban customers. Customers can place orders for edible products prepared by women across India.

Objectives:

1. Login page and logout page
2. Signup page
3. item detail page
